# Katalog Produk Unggulan

## Featured Product Catalogue

Berikut adalah penempatan matriks produk yang siap diisi dengan detail spesifikasi teknis barang:

*Below is the product matrix placement layout, ready to be filled with detailed technical specifications of the items:*

<p><b>[ALIA] Flowmeter and Transmitter</b> Alat pengukur aliran fluida berakurasi tinggi untuk berbagai jenis cairan industri. Cocok untuk aplikasi pengolahan air limbah, kimia, dan sistem proses otomatis. <i>High-accuracy fluid flow measurement device for various industrial liquids. Suitable for wastewater treatment, chemical, and automated process system applications.</i></p>	<p><b>[TRIMOD BESTA] Industrial Level Switch</b> Saklar pengontrol level cairan modular. Dirancang tangguh menghadapi tekanan dan suhu ekstrem pada tangki penyimpanan atau bejana tekan proses industri. <i>Modular liquid level control switch. Robustly designed to withstand extreme pressure and temperature in industrial storage tanks or process pressure vessels.</i></p>
<p><b>[TIANMIN] Liquid Level Detector and Gauge</b> Alat pengukur Tingkat fluida dan Transmitter level cerdas. <i>Fluid level measuring instruments and smart level transmitters</i></p>	<p><b>[GASENSOR] Gas Detector</b> Sistem keamanan industry untuk mendeteksi kebocoran gas berbahaya seperti Gas Mudah Terbakar, Gas Beracun dan Deteksi Api. <i>Industrial safety system to detect hazardous gas leaks. Such as Combustible gas, Toxic gas and Flame Detector.</i></p>
<p><b>[ISOTECH] Temperature Calibrator</b> Pemimpin dunia di bidang metrology dan alat kalibrasi suhu. <i>world leader in temperature calibration equipment and metrology solutions</i></p>	<p><b>[3M] Termination &amp; Jointing Kit</b> Solusi penyambungan kabel tegangan rendah hingga menengah. Memberikan proteksi isolasi maksimal, tahan kelembapan, dan standar keamanan tinggi. <i>Low to medium voltage cable splicing and connection solutions. Provides maximum insulation protection, moisture resistance, and high safety standards..</i></p>
<p><b>[RHEINDERS] UPS &amp; Stabilizer</b> Komponen perakitan panel distribusi daya beserta dukungan teknis instalasi, terminasi, dan komisioning sistem elektrikal terintegrasi. <i>Power distribution panel assembly components along with technical support for installation, termination, and commissioning of integrated electrical systems.</i></p>	<p><b>[SERVICES] Electrical Jointer and Industrial Sign Installation</b> Merupakan jasa yang di sediakan kepada pelanggan kami dalam pengerjaan jasa pemasangan kabel industri dan jasa pemasangan rambu-rambu. <i>This is a service provided to our customers for industrial cabling installation and safety signage installation</i></p>
